DANCEZING

Something we have learnt more than ever over the last couple of years is that life is unpredictable and that even the best laid plans can be disrupted. As you know, Covid scuppered our plans for our Eastbourne weekend break. I should have known that setting the date to coincide with April Fool's day was a crazy idea!

Anyway, like all great line dancers, we won't let anything beat us, so the weekender is re-scheduled for 22nd April. (Let's hope St George is looking out for us!)

Our new beginner classes are perfect for anyone who hasn't danced before or even for 'rusty returners'. With step by step instruction the routines are easily learnt. You will also gain a knowledge of the step patterns and terminology commonly used in line dancing.

When you feel ready for a new challenge you can move up to one of our beginner + or beginner +/ improver classes where the routines are a bit longer & incorporate more moves & step sequences.

Once you feel comfortable with the steps and terminology you can join our improver and/or intermediate level classes. The routines tend to be a bit longer with more challenging step sequences. Routines are still broken down into manageable chunks & we still have great fun!

Of course, there is no need to move classes. This is an option for anyone wanting to challenge themselves but if you love your current class & wish to stay - that's great!
